

New dashboard and notification tools

We are excited to announce a few ways we're making doing business even easier through recent updates to our dashboard and notification tools.

- Pending, paid, and notification snapshots on homepage
- Refreshed notifications app — easier to use, new functionality, and automatic web subscriptions
- Use on any device — mobile, tablet, and desktop
- Directly download correspondence and statement copies from the notifications app
 - After January 1, 2019, this will be the only way to receive this correspondence. *More information to come.*
- Set up alerts via web or email

These new and updated resources can be accessed on the agent website after login. Start using these exciting tools today!
