A minimum surrender value is guaranteed when the contract is terminated due to full surrender, death, or annuitization. This amount is calculated by:

- Taking 100% of aggregate purchase payments accumulated at the contract's non-forfeiture rate of 1.25%, and
- Subtracting any prior aggregate withdrawals (including withdrawal charges) accumulated at the non-forfeiture rate, and
- Subtracting any withdrawal charges that apply at termination.
- ¹ Amounts allocated to any of the following strategies earn interest in arrears based, in part, on the performance of the S&P 500® Index (without dividends). Interest, if any, is credited at the end of each index term.
- ² This strategy credits interest when index performance is positive—up to a maximum of the interest rate cap in effect for that year. When index performance is negative, no interest is credited for that year.
- ³ This strategy credits a predetermined trigger interest rate when index performance is flat or positive. When index performance is negative, no interest is credited for that year.
- 4 Amounts allocated to this strategy earn interest in arrears, based in part on the performance of the Citi Flexible Allocation 6 Excess Return Index. The index term is two years. This strategy credits interest by multiplying the index performance by the participation rate and then subtracting the spread. A positive result is the interest rate for that term. If the result of that calculation is 0% or negative, no indexed interest will be credited for that term. Offered are two versions of this strategy, Participation Focus and Spread Focus. The Participation Focus has a participation rate declared in advance, subject to the minimum participation rate, and is guaranteed for each two-year index term with a spread that is guaranteed to remain 0% for the life of the contract. The Spread Focus has a spread declared in advance, subject to the maximum spread, and is guaranteed for each two-year index term with a participation rate that is guaranteed to remain 100% for the life of the contract. The crediting strategy will not reduce the contract value, even if the index performance is flat or negative.

Protective Asset Builder is a limited flexible premium deferred indexed annuity contract issued under policy form series FIA-P-2010 and FIA-P-2011. Protective Asset Builder is issued by Protective Life Insurance Company located in Birmingham, AL. Policy form numbers, product availability and features may vary by state.

Protective Asset Builder is not an investment in any index, is not a security or stock market investment, does not participate in any stock or equity investment, and does not contain dividends.

Protective [®] Income Builder Available in all states except NY.	Rates effective 02/19/2019							
7-Year Withdrawal Charge Schedule								
Crediting Option	Fixed Rate	Annual Pt-to-Pt Rate Cap¹	Annual Trigger Rate ²					
Contract Value \$100,000+	2.50%	6.00%	4.25%					
Contract Value Under \$100,000	2.35%	5.70%	3.95%					

A minimum surrender value is guaranteed when the contract is terminated due to full surrender, death, or annuitization. This amount is calculated by:

- Taking 100% of aggregate purchase payments accumulated at the contract's non-forfeiture rate of 1.25%, and
- Subtracting any prior aggregate withdrawals (including withdrawal charges) accumulated at the non-forfeiture rate, and
- Subtracting any withdrawal charges that apply at termination.

All non-guaranteed components of the indexing formula may change and could be different in the future. For product details, benefits, limitations and exclusions, please consult the contract, product guide and disclosure statement. These documents describe the terms and conditions that control the insurance company's contractual obligations.

¹ Amounts allocated to this strategy earn interest in arrears based, in part, on the performance of the S&P 500® Index. The interest credited is equal to the percentage change of the index up to the interest rate cap, but not less than 0%. The interest rate cap is first set when you purchase the contract and thereafter, annually at the beginning of each contract year. When market index performance is negative, no interest is credited for that year.

² Amounts allocated to this strategy earn interest in arrears based, in part, on the performance of the S&P 500® Index. The indexed interest rate is first set when you purchase the contract and thereafter, annually at the beginning of each contract year. This strategy credits a predetermined trigger interest rate when market index performance is flat or positive. When market index performance is negative, no interest is credited for that year.

Indexed interest could be less than that earned in a traditional fixed annuity, and could be zero.

The Protective Income Builder is a limited flexible premium deferred indexed annuity contract with a limited market value adjustment, issued under policy form series FIA-P-2011 or FIA-P-2010. The Protective Indexed Annuity II is issued by Protective Life Insurance Company located in Birmingham, AL. Policy form numbers, product availability and features may vary by state.

The Protective Income Builder is not an investment in any index, is not a security or stock market investment, does not participate in any stock or equity investment, and does not contain dividends.

A minimum surrender value is guaranteed when the contract is terminated due to full surrender, death, or annuitization. This amount is calculated by:

- Taking 100% of aggregate purchase payments accumulated at the contract's non-forfeiture rate of 1.25%, and
- Subtracting any prior aggregate withdrawals (including withdrawal charges) accumulated at the non-forfeiture rate, and
- Subtracting any withdrawal charges that apply at termination.

¹ Contracts including the Return of Purchase Payment (ROP) feature may earn a lower interest rate than those without it.

² Amounts allocated to this strategy earn interest in arrears based, in part, on the performance of the S&P 500® Index. The interest credited is equal to the percentage change of the index up to the interest rate cap, but not less than 0%. The interest rate cap is first set when you purchase the contract and thereafter, annually at the beginning of each contract year. When market index performance is negative, no interest is credited for that year.

³ When market performance is flat or positive, this strategy credits a predetermined trigger interest rate. When market performance is negative, no interest is credited for that year.

⁴ When market index performance is positive, this strategy credits interest equal to the market index performance – up to a maximum of the interest rate cap in effect for that year. This option guarantees the interest rate cap to be locked in and remain constant for the entire surrender change period, then subject to change annually thereafter. When market performance is negative, no interest is credited for that year.

All non-guaranteed components of the indexing formula may change and could be different in the future. For product details, benefits, limitations and exclusions, please consult the contract, product guide and disclosure statement. Annuities are long-term investments intended for retirement planning.

Protective and Protective Life refer to Protective Life Insurance Company (PLICO) and its affiliates, including Protective Life & Annuity Insurance Company (PLAICO). Annuities are issued by PLICO in all states except New York and in New York by PLAICO; securities issued by Investment Distributors, Inc. (IDI) the principal underwriter for registered products issued by PLICO and PLAICO, its affiliates. All companies are located in Birmingham, AL. Product availability and features may vary by state. Each company is solely responsible for the financial obligations accruing under the products it issues. Product guarantees are backed by the financial strength and claims-paying ability of the issuing company.

This annuity rate notification is intended only as a summary of the current rates offered for the listed products. The insurance company sets interest rates at its sole discretion and cannot guarantee or predict future interest rates.

Investors should carefully consider investment options before investing. For this and other product details, benefits, limitations, and exclusions, please consult the prospectus (for registered products) or the contract, product guide, and disclosure statement (for non-registered products). These documents describe the terms and conditions that control the insurance company's contractual obligations. Investors should read the prospectuses carefully before investing. Prospectuses may be obtained by contacting PLICO at (800) 456-6330.
